# KGOTHATSO KENNY MANYAKA

**Junior Software Developer (React & Python)**

Pretoria, Gauteng, South Africa | +27 66 055 3889 | manyakakgothatso7@gmail.com |

linkedin.com/in/kgothatso-manyaka-00036627b | github.com/KennydaNerd

## PROFESSIONAL SUMMARY

Motivated and detail-oriented Junior Software Developer with hands-on full-stack development training from FNB App Academy and WeThinkCode_. Specializes in building responsive web applications using React, JavaScript (ES6+), and Python (FastAPI). Proven ability to design RESTful APIs, integrate database architectures, enforce security protocols (JWT, password hashing), and automate unit and integration testing. Combines technical capability with a background in client-facing communications, ensuring strong collaboration, effective user feedback integration, and clear technical dialogue. Seeking an entry-level software development role, graduate programme, or tech internship.

## TECHNICAL SKILLS

**Front-End Development:** React.js, React Router, JavaScript (ES6+), HTML5, CSS3, Vite, Mobile-First & Responsive Design

**Back-End & Databases:** Python, FastAPI, REST API Design, Pydantic, SQL, SQLite

**Testing & Security:** Automated Testing (Pytest, FastAPI TestClient), JWT Authentication, PBKDF2 Password Hashing, Input Validation

**Tools & Deployment:** Git, GitHub, Vercel, Render, VS Code, Browser Developer Tools, Oracle Cloud Infrastructure (Basics)

**Core Competencies:** Software Architecture, Requirement Gathering, Agile Basics, Technical Communication, Problem Solving

## SOFTWARE DEVELOPMENT PROJECTS

**Full-Stack Salon & Hair Retail Platform** — **React, Vite, Python, FastAPI, SQLite**

Live Demo: frontend-inky-three-34.vercel.app | Source Code: github.com/KennydaNerd/hair-by-neo

- Engineered a full-stack e-commerce and booking platform featuring a custom React front-end and a high-performance FastAPI back-end.
- Built RESTful API endpoints with Pydantic schema validation for managing products, client services, bookings, and gallery uploads.
- Implemented secure admin authentication using JWT tokens, PBKDF2 password hashing, and login rate limiting.
- Developed an automated test suite comprising 9 Pytest cases covering API endpoints, input validation, authentication, and security.
- Deployed client front-end to Vercel and back-end service to Render using environment variable configurations and CORS policies.

**Support Ticket Tracker Application** — **React, Vite, JavaScript, CSS3**

Live Demo: support-ticket-tracker-vert.vercel.app | Source Code: github.com/KennydaNerd/support-ticket-tracker

- Designed a responsive single-page application for logging, categorizing, and tracking IT service requests across viewports.
- Implemented persistent client-side state storage using the browser LocalStorage API to retain ticket data between sessions.
- Configured Git-based automated deployment pipelines on Vercel for continuous code updates.

**Interactive IT Troubleshooter Tool** **JavaScript (ES6+), HTML5, CSS3**

Live Demo: it-troubleshooter.vercel.app | Source Code: github.com/KennydaNerd/it-troubleshooter

- Developed an interactive decision-tree diagnostic tool guiding non-technical users through structured hardware and software troubleshooting.
- Wrote clean, framework-free vanilla JavaScript for dynamic DOM manipulation and path evaluation.

## WORK EXPERIENCE

**Freelance Web Developer** **2023 – Present**

**Self-employed | Pretoria, South Africa**

- Engage with small business owners to gather project requirements, scope technical deliverables, and establish production timelines.
- Develop responsive layouts with HTML5, CSS3, JavaScript, and React, deploying live functional sites on Vercel.

**Outbound Telemarketing Specialist** **2026**

**Pretoria, South Africa**

- Managed daily outreach initiatives against targets, using active listening and objection handling—skills translated into client communication and user feedback integration during software testing.

**In-Store Brand Promoter** **Aug 2022 – Dec 2023**

**Wendy's Girls and Boys | Gauteng, South Africa**

- Engaged customers in high-volume retail environments, strengthening verbal communication, presentation, and rapport-building skills.

## EDUCATION & CREDENTIALS

**Software Engineer Bootcamp:** WeThinkCode_

**Full Stack Academy:** FNB App Academy

**AI Skills Accelerator:** CAPACITI

**Google AI Essentials Cert:** Google (2024)

**OCI Foundations:** Oracle (Completed 2023)

**National Senior Certificate:** Matric (2017)

** Internship Offer Received: Full Stack Web Development Intern – Future Interns*
